

HELP THEM LIVE, HAPPIER LONGER AND HEALTHIER LIVES.

As your pet gets older, it experiences many of the same things that aging humans do... stiffness, decreased energy and vitality, and increased susceptibility to illness and injury.

Poly-MVA for Pets® is the first in a brand new class of nutraceuticals which has been reported to help older pets live more active, healthy lives.

- Superior nutritional support*
- Increased energy, vitality and alertness*
- Enhances overall health and well-being*
- Greater mobility
- Supports pain-related discomfort
- Can significantly improve quality of life
- Promotes optimum health & cellular protection

Poly-MVA for Pets® will help ensure that your animal companion maintains a full, active and enjoyable life throughout their golden years

LEADING THE WAY TO OPTIMUM HEALTH™

A leading veterinary oncologist recently noted, "I am substantially rewarded daily by the many stories of enhanced health and wellness of my patients and of the lengthened time the animals have had with their families."

YOUR AGING PET LOVES YOU

NOW THERE'S A WAY TO ENHANCE THE COMFORT AND QUALITY OF LIFE FOR YOUR LOVED ONE.

A HAPPY HEALTHY PET

Poly-MVA for Pets® has helped thousands of animals over the past 15 years. It supports healing and offers optimum health benefits unlike any other product.

The unique nature of Poly-MVA for Pets makes it safe, effective and well suited for your pet so you can be sure your animal friend will experience positive benefits from the use of this product.

THE NEXT ADVANCE IN NUTRITION™

The key to the remarkable properties of **Poly-MVA for Pets**[®] lies in its active ingredient, the patented Palladium Lipoid Complex (LAPd).™

This unique product enhances cellular function in healthy cells, increases cellular energy, and supports damaged cells in healing, while at the same time interfering with the function and reproduction of abnormal cells.*

In short, **Poly-MVA for Pets**[®] can improve the function of many cells, tissues, and organs in your pet's body, helping them to be more healthy, active, and attentive.

Many years of clinical research and testing by laboratories and veterinarians have shown extraordinary benefits from the use of **Poly-MVA for Pets**[®].

■ INCREASED ENERGY

Many veterinarians and animal owners have reported a dramatic increase in appetite, alertness, and energy in animals given **Poly-MVA for Pets**[®] within just a few days of starting the product.

■ PROTECTION AFTER ISCHEMIC EVENT

In a published study, laboratory animals receiving **Poly-MVA for Pets**[®] immediately following an ischemic episode demonstrated 80% protection from damage and recovered faster than animals not receiving **Poly-MVA for Pets**[®]. Many veterinarians recommend giving **Poly-MVA for Pets**[®] to your animal companion and especially to your older animals for support and protection

■ SUPERIOR ANTIOXIDANT AND FREE RADICAL PROTECTION*

Since **Poly-MVA for Pets**[®] has been shown to disrupt the functioning and energy source of anaerobic cells, it not only supports the body to work against abnormal cells, but also protects from free radicals and oxidative stress. **Poly-MVA for Pets**[®] is a powerful nutraceutical that optimizes the function of cells, tissues and organs by enhancing energy production, thus improving cellular function. Pets will benefit from improved energy, greater alertness and attentiveness, and overall enhanced health.*

■ SUPPORT FOR PAIN RELATED DISCOMFORT*

Many animal owners have reported amazing results in improved mobility, reduction of joint stiffness, and reduced discomfort in pets having joint related difficulties.

■ EXTRAORDINARILY SAFE

Over 40 years of laboratory research and development have gone into **Poly-MVA for Pets**[®]. Toxicity and safety tests have shown it to be remarkably safe. Animals given acute dosages 50 times higher than the highest recommended dosage experience no side effects or other negative symptoms.

■ ENHANCES YOUR PET'S QUALITY OF LIFE

By increasing appetite, enhancing energy, protecting healthy cells and improving alertness and vitality, your beloved animal companion will live a longer, happier, healthier life with the help of **Poly-MVA for Pets**[®].

THE CLINICAL FUNCTION OF POLY-MVA FOR PETS[®]

Poly-MVA for Pets[®] is the first product to come out of the new field of electrogenetics, which studies and describes the energy requirements, energy exchanges, and electrical communication that allow DNA signaling and communication in our cells. While an in-depth explanation involves interactions that bridge the fields of chemistry, physics and biology, the mechanism of **Poly-MVA for Pets**[®] can also be explained in more common physiological terms.

Poly-MVA for Pets[®] maintains and enhances the function of mitochondria, the main source of energy within cells. In healthy cells using aerobic respiration, **Poly-MVA for Pets**[®] not only protects these cells from damage, but enhances their function and action. The clinical effects of **Poly-MVA for Pets**[®] have been proven in studies with hundreds of laboratory animals as well as in veterinary oncology hospitals and health centers nationwide.
